**BIOCIDE PLUS™ (#LGC1)** A concentrated, multi-purpose, neutral pH, germicidal detergent and deodorant effective in hard waters up to 400 pp, (calculated as CaCo<sub>3</sub>) in the presence of a moderate amount of soil (5% organic serum) according to the AOAC Use-Dilution test. Disinfects, cleans, and deodorizes in one labor saving step.

1. **CLEANER:** Easily removes very tough soil residues and their related odors.
  2. **DEODORIZER:** Long lasting Ocean Fresh scent; **ELIMINATES ODORS!**
  3. **MILDEWSTAT** (on hard inanimate surfaces): Controls mold and mildew.
  4. **VIRUCIDE:** Kills Influenza A (Canine Influenza)! Kills HIV-1 (AIDS). Kills Hepatitis B Virus (HBV) and Hepatitis C (HCV). Kills Parvovirus, Canine Distemper virus, Feline Picornavirus, and much more!
  5. **DISINFECTANT:** Kills Staph, Salmonella, Psuedomonas and E. Coli.
  6. **FUNGICIDE** (against pathogenic fungi)
  7. Efficacy tests demonstrate that Biocide Plus™ is effective in the presence of organic soil. (5% blood serum)
  8. **SAFE:** Non-Dulling to Floors - Floor Finishes (neutral pH); Environmentally preferred and safe to the environment.
  9. **ECONOMICAL:** Clean for \$.15/gallon Biocide Plus is highly concentrated and has a very low usage cost. Ready-to-use and weakly concentrated products are NOT the solution for large cleaning and disinfecting jobs.
- Sold in gallons, pails, kegs, and drums.

## Cleaners - General

ALPINE™ (LL2) Liquid laundry detergent concentrate. A commercial liquid laundry detergent concentrate with optical brighteners for whiter whites and enhanced colors after laundering. ALPINE™ Liquid Laundry Detergent Concentrate is formulated to remove grease, grass stains, dirt and other tough soils while leaving clothes bright and freshly scented. ALPINE™ Liquid Laundry Detergent Concentrate is formulated for use in commercial, industrial and institutional laundries. This high quality detergent performs well in all water temperatures and is safe for all machine washable items.

For regular washers, use 4 ounces per 100 lb load. For High Efficiency (HE) washers, use 1-2 ounces per load.  
Sold in gallons, pails, kegs, and drums.

GLEME GLASS CLEANER (#AC11) Spray and wipe clean. Leaves no film! Cleans, Brightens and Polishes. GLEME for cleaning and polishing windows, mirrors and other glass surfaces. This high foaming, easy-to-use product quickly breaks up soils. Heavy foaming formulation with long lasting vertical cling!  
Smells amazing!  
12 cans per case.

E-Z WASH™ (#LDW1) E-Z WASH™ Detergent Concentrate is a multi purpose liquid dish wash product specially formulated for use in the food industry environment. E-Z WASH™ does not contain harsh acids or alkaline detergents and may be used in all areas of the food processing plant. USDA A1. (NOT FOR DISHWASHERS)  
Sold in gallons and pails.

GENIE™(LBC1) GENIE™ is a complete bathroom cleaner. This product cleans toilets, sinks, tubs, showers and related fixtures fast and efficiently. GENIE™ is the product of choice for tough bathroom cleaning jobs. GENIE™ is pleasant to use and economical. GENIE™ is concentrated and effective.

Sold in quarts with flip-top caps for easy dispensing.

## Degreasers / Descalers

BULL DOG™ (#LC4) is formulated to remove a broad spectrum of soils. It is a highly concentrated, non flammable and non corrosive product. Bull Dog is effective in all areas where heavy accumulations of dirt, grease, fats or oily soils present a cleaning problem.

Bull Dog is safe for use on any surface that is not harmed by contact with water.

SCONEX™ (#LD6) A highly concentrated acidic detergent and brightener formulated for special research environments. Sconex™ excels in the removal of uric deposits, animal excreta, hard water scale and other soils. Sconex™ also removes soap scum, organic and inorganic matter from ceramic tile floors, walls, and fixtures. Sold in gallons.

## Dish Sanitizer

MAGIC GERMICIDE(#LG16) MAGIC GERMICIDE is designed for use in food processing plants, schools, animal quarters and kennels where disinfection, sanitization and deodorization is of prime importance. When used as directed, MAGIC GERMICIDE is formulated to disinfect hard, non-porous, inanimate environmental surfaces: floors, walls, metal surfaces, stainless steel surfaces, glazed porcelain, glazed ceramic tile, plastic surfaces, bathrooms, shower stalls, bathtubs, cabinets, tables, chairs and telephones.

## Hand Soap / Sanitizer

CLEANSHAPE INSTANT HAND SANITIZER (#LHS45) No water needed when using this crystal clear, ethyl alcohol based gel. Kills 99.9% of eight important organisms in 15 seconds or less including MRSA, VRE and E-coli, plus, the thick formula won't run off hands and doesn't over-dry skin. No dye or fragrance. Helps employees comply with OSHA's Blood-borne Pathogens Standard. Great for fast hand cleaning.

\*Packaged in 1000ml containers, 8 per case.

CLEANSHAPE FOAMING HAND SOAP (#LHS40) Formulated with 0.5% Triclosan, lab test prove that it kills 99.9% of most disease-causing bacteria. With an amber color, citrus-spice scent and enhanced with Aloe and Vitamin E, this unique foaming formula lathers quickly and leaves hands feeling clean and smelling fresh.

\*Packaged in 950ml containers, 8 per case.

### CARE KNOCKOUT™ DEODORIZER(#LDCXX):

A powerful, broad-spectrum deodorizer which quickly and effectively eliminates the most severe odor problems. KNOCKOUT™ is economical and also an excellent environmental choice. One quart does the work of 3 or more aerosols. This saves in product use-cost, inventory overhead, storage space and it reduces the number of discarded containers which go to landfills. Our dispensing system eliminates the use of flammable or ozone-depleting propellant gases. In addition, our adjustable spray pattern nozzle is a convenient advantage in many applications.

Available in the following fragrances:

Fresh: #LDC10

Cherry: #LDC2

Baby Powder: #LDC4

ZAPS IT (#LE2) ZAPS IT™ is a powerful odor digester and organic stain remover. ZAPS IT™ dissolves and digests waste residues, stains and malodors caused by urine, feces, vomit, blood, food wastes and other organic matter. It was created utilizing the best bio-technology and modern chemistry to build a product that achieves successful results where other products may disappoint or fail to perform.

Sold in quarts, gallons, and pails.

ZAPS-IT™ is NOT simply a deodorizer. ZAPS-IT™ is a blend of friendly bacteria which remain inactive in the bottle. When sprayed on a problem area, the solution penetrates into porous surfaces, grouting, cracks and hard to reach areas. Upon contact with residues of urine, feces, vomit, blood, food soils and other organic wastes enzymes begin breaking down the odor-forming organics into liquids. The bacteria then convert the absorbed organics into carbon dioxide and water which quickly dissipate. While this process is taking place, the pleasant fragrance of ZAPS-IT™ provides immediate relief from bad odors.

## Types of Liners

### Advantages of Linear Low Density Can Liners

1. Maximum puncture and stretch resistance compared to High Density
2. Multi-purpose applications
3. Most prevalent type of film used in the industry today.
4. Manufactured in a wide variety of colors.
5. Compared to traditional low density film, linear low can be run at a lighter gauge with equal strength.

### Advantages of High Density Can Liners

1. HMW/HD liners are about 3 times stronger and more durable than ordinary polyethylene liners of the same thickness.
2. HMW/HD liners require two-thirds less petroleum based raw material to manufacture. Accordingly, they can be made about one-third the thickness of ordinary low density polyethylene liners, so they require only about one-third the ordinary shipping, storage and warehousing cost.
3. Substantial cost savings per liner.
4. When they are properly made, HMW/HD liners will rarely “zipper” if punctured.
5. Extremely wide range of temperature resistance from -40 degrees F to +212 degrees F (boiling).
6. USDA and FDA approved (natural colored liners).
